Subject:	CX609/CZ509 Phone Pairing		

Description:

Bluetooth hands free profile (HFP) allows you to utilize your car's audio system for wireless mobile phone communication.

Step by Step Phone Pairing

1. Select "Bluetooth" source from Source Selection list.
2. Press and Hold the "DISP/ADJ" key for 1 second.
3. Use the LEFT and RIGHT arrows to scroll to the "Pairing" function.
4. Press the "PLAY/PAUSE/ENT" key.
5. Select "Pairing Telephone" function with the UP and Down arrows.
6. Press the "PLAY/PAUSE/ENT" key
7. Select Memory Location with the UP and DOWN arrows.
8. Press and Hold the "PLAY/PAUSE/ENT" key for 1 second.
9. Select pairing method (**Search** or **Wait**) with the UP and DOWN arrows.

Search Method:

This method will allow the source unit to search for Bluetooth devices. This method also requires the connecting device to be in discoverable state.

- A. Select pairing method **Search**.
- B. Press and Hold the "PLAY/PAUSE/ENT" key for 1 second.
- C. Source unit's display will flash "*Searching*"
- D. Searching process takes about 1 min then will display all devices found.
- E. Use the UP and DOWN key to select device.
- F. Press and Hold the "PLAY/PAUSE/ENT" key to connect to selected device.
- G. Phone will then be prompted to connect. Accept then enter Pin Number (default:1234).
- H. Source Unit will display "*Connect OK*" and then the name of the phone will be displayed on the screen.

Wait Method:

This method will allow search for the source unit via the cellular phone. Typically this method is quicker to complete the phone pairing process.

- A. Select pairing method **Wait**.
- B. Press and Hold the "PLAY/PAUSE/ENT" key for 1 second.
- C. Source unit's display will flash "*Waiting*"
- D. Search for Bluetooth devices via the cellular phone.
- E. Select source unit from the list of devices found.
- F. Source unit will display the name of the cellular phone.
- G. Enter passkey on the cellular phone (default is 1234).
- H. *Source Unit will display "Connect OK" and then the name of the phone will be displayed on the screen.*
